SECTION III.

PROTECTION

(1) *Ajmer Merwara Police (year ending the 31st December 1923).*

Crime Statistics

[illegible]

13. The total volume of reported crime excluding false cases and including true cases reported to Magistrates was 2,067, an increase of 143 as compared with the figures for 1922. The increase falls largely under heads (i) offences against the State, public tranquillity, safety and justice, (ii) serious offences against the person, (iii) serious offences against the person and property and (iv) public nuisances and offences under the Criminal Tribes Act. There was an actual increase of 34 in the volume of crime reported to the Police during the year.

The incidence of crime per 10,000 of population amounted to 54.3 compared with 50.2 last year.

Investigations

14. Investigations were made in 90 per cent of cases reported compared with 91 per cent in 1922.

Forty one Police cases were struck off as false or as due to mistakes of fact or law compared with 69 the year before. 3 cases were investigated or supervised by the Deputy Superintendent of Police and 11 cases were personally enquired into or supervised by the Superintendent himself.

Murder

15. The number of murder cases reported increased from 7 in 1922 to 10 in 1923 including 2 cases pending from the previous year. There were 12 true police cases, of which 4 were convicted, 3 were pending at the close of the year and 4 remained undetected while in one case the accused is absconding. The figures for 1923 show a heavy increase over those of 1922 but are below the average of the triennium 1920-21-22. Of the 10 cases reported during the year 6 were due to sexual or private quarrel, 3 were committed by thieves or robbers in the course of their Criminal Operations and one was a case of murder of a newly born child.

The outstanding case of the year was that in which a sepoy was shot from the steps of the Dargah in the July riots. The accused Sahibzada of Tonk was acquitted after the close of the year. In another case a Khadim of the Dargah stabbed his Hindu creditor in the street and no attempt was made to arrest him at the time by a police constable who saw the affray. This was one of the causes contributory to the July riots as communal excitement was aroused.

Poisoning

16. Only one case of poisoning was reported during 1923 compared with the same number in 1922. It, however, proved to be false and was expunged. There were 21 Magistrates' cases during the year, of which 2 ended in conviction, 12 were discharged while 7 remained pending at the close of the year.

Dakaiti

17. 29 cases of dakaiti including 2 cases of dakaiti with murder occurred during the year, of these 6 were house dakaities and the remaining road dakaities. The number of cases in 1922 was only 9. No conviction was obtained during the year. Mod Singh the leader of the gang responsible for no less than 11 cases has been arrested and is under trial in several cases, although his associates are still at large. The gang of Mangal Das of Marwar which was responsible for 2 dakaities was rounded up by the Marwar Police and the principal members were killed. There are cases pending against Sansis of Mewar, Minas of Kishangarh and Jaipur and some well known camel lifters of Alwar, Jaipur and Marwar who were arrested but escaped from State Police custody.

18. Including one case pending from 1922 there were 23 true cases of robbery for disposal as compared with 19 true cases in 1922. Of the former one only ended in conviction, one was acquitted, 12 remained undetected and [illegible] pending at the close of the year. Two of the robberies were the work

of Mod Singh's gang, two of Kishangarh Baories, and one of the Sansies of Bhilwara (Mewar) settlement, the rest being probably committed by wandering criminal tribes gang.

19. The number of true cases including Magistrates' cases for disposal and those remained from last year was 557 compared with 604 in 1922.

20. There were 376 true police cases for disposal compared with 363 in 1922, 134 cases involving 166 persons were sent up for trial, 84·32 ended in conviction.

21. 72 true police cases were disposed of compared with 83 in 1922. Only 23 cases were worked out.

22. The year closed with 272 adult male members of all classes including gypsies on the Criminal Tribes registers as against 247 of 1922. There were 34 prosecutions under sections 22 and 24 of the Criminal Tribes Act and 7 under the Indian Penal Code and Criminal Procedure Code.

Restriction under section 11 of the Criminal Tribes Act amongst gypsies is undoubtedly proving beneficial (1) in checking ingress of State "Gypsies" and (2) in influencing restricted persons to settle down and adopt an honest livelihood.

23. 39 persons were prosecuted under preventive sections of the Criminal Procedure Code as compared with 43 in 1922. 30 out of 39 were bound over, 8 discharged and the case against one accused was withdrawn.

Police.

24. The total sanctioned allocation including private guards is 38 officers and 839 men as against 40 officers and 90[illegible] men in the previous year, 2 officers and 72 Head Constables and constables were brought under reduction owing to the necessity of general retrenchment and the purchase of two police prison van for the purposes of conveyance of prisoners between headquarters and out-lying police stations. The actual strength at the close of the year was 38 officers and 777 head constables and men.

25. 2 Officers and 5 men were convicted judicially during the year compared with 6 men in 1922, 1 officer and 29 men were punished departmentally compared with 19 men in 1922, 277 officers and men were rewarded receiving a total of Rs. 2,465-3-0 against 237 officers and men who earned Rs. 3,047-1 6 in 1922.

28. 11,120 persons were placed on trial of whom 4,790 were convicted The corresponding figures for the year 1922 were 11,362 and 5,166.

The average duration of each case was 44·87 days as compared with 37·47 in the year 1922.

The number of witnesses examined was 3,219 as against 3,407 in the year 1922.

29. The court of sessions dealt with the cases of 25 persons against 26 in the year 1922. Of these 21 were convicted, 2 acquitted and 2 remained under trial.

29-A. The number of appeals and miscellaneous criminal applications disposed of by the Chief Commissioner as High Court was 103 out of which 76 were rejected. (4) *Registration (year ending the 31st December 1923)*

34 There was no change in the number of registration offices which remained the same as last year viz 7 The total number of documents registered during the year was 4,604 against 4,841 during the preceding year Decrease in registration of documents is due to a good agricultural year The receipts amounted to Rs 11,168 14 6 against Rs 10,117 last year Increase in receipts is due to raising of the scale of Registration fees The area of agricultural land transferred by sale and mortgage was Bighas 6,167 2 13 against 6,752 last year

The work of registration offices during the year was generally satisfactory

(5) *Municipalities (year ending the 31st March 1924)*

35 During the year under report the constitution of the Ajmer Municipal Committee remained unchanged The Committee was composed of 24 members 6 nominated and 18 elected—of whom 8 were Europeans and 16 Indians

The income shows an increase of Rs. 16,030 as compared with the figures of the preceding year. If, however, the Government loan of Rs. 18,000 is excluded there is a decrease of Rs. 1,970. The principal increase in receipts was under the head "Fees and revenue from market and slaughter house" and the chief decreases are observable under the heads "Octroi and Bonded Ware House" and "Sales miscellaneous".

The expenditure fell short of that incurred in the previous year by Rs. 57,517. The principal decreases occurred under the heads "Water supply", "Conservancy", "Lighting", "Roads" and "Office Establishment" The general result may be attributed to the earnest effort made by the Municipality to observe economy in expenditure wherever possible The office establishment was reduced and retrenchment was also effected in other directions.

37. The gross and net receipts from octroi in the two years are shown below:—

	Gross.	Net.
	Rs.	Rs.
1922-23	3,00,663	2,41,829
1923-24	2,93,394	2,41,654
Difference .	—7,269	—175

38. The decrease of Rs. 7,269 in gross octroi receipts occurred chiefly under the items "jaggery" and Piece Goods" and "metals". (2) Municipal Storage cisterns	14·04
(3) Catchment area of the Foy Sagar . . . . and	11·96
(4) Bhaonta water works	15 54

The Foy Sagar lake was dry both at the commencement and close of the year, its highest water level during the year being only 8 80. At the Budha Pushkar lake the water level was 12 2½ at the commencement and 16·8½ at the close of the year The water level of Bhaonta well No. 5 was 84·00 on the 1st March 1923 and 83 92 on the 31st March 1924. During the year. water was pumped from the Foy Sagar lake for about 6 months, from the Foy Sagar wells for about 8 months, from the Bhaonta wells for about 8 months, and from the Budha Pushkar lake for about 7½ months. In May and June the level of the Bhaonta well became dangerously low and the most careful supervision on the part of the Executive Engineer was required to avert a failure of this supply, water was pumped from the lead mine by electric power provided by the Railway authorities and for a short period a water train was run from Kishangarh. The latter experiment hardly justified itself. In May the services of Mr. F. J. Mallett, the Mechanical Engineer to the Government, U. P., were secured by the Local Administration. His report was of great value and prevented useless expenditure by the Municipality on the Bhaonta wells and by the Railway on Budha Pushkar.

In February 1924 on the recommendation of the Agent of the B B and C I Railway, the services of Major C A Pogson were secured His report on the underground water supply of Ajmer was of interest and a loan of Rs 18 000 was obtained from Government to enable the Municipality to give effect to his recommendations The results of the work thus undertaken will be shown in next year's report

43 The number of births recorded was 2 437 and of deaths 3,959 as against 2 454 and 3 451 respectively in the previous years

The birth and death rates per mille of population were 20 78 and 35 55 against 24 65 and 34 67 respectively in the preceding year

The mortality among children under 5 years of age was 2 221 (55 06 per cent of the total mortality) against 48 12 in the previous year

44 The total number of vaccinations performed was 5 201 against 4 901 in the previous year

45 A committee was appointed by the Local Government to enquire into and report on the finances and working of the various departments of the Municipality Their final report was not received during the year under report

46 The Local Government has been moved to sanction the imposition of the following taxes —

(1) Visitors' tax

46 A A new permanent stores sub Committee was appointed during the year under report for controlling the purchase and supply of all municipal stores The results were satisfactory

46 B The revised draft of the Ajmer Merwara Municipal Regulation is still under the consideration of the Government

47 The Committee held 9 special and 19 ordinary meetings

Beawar Municipality, Population 23 363

48 The total income and expenditure for the year amounted respectively to Rs 1 40,111 and Rs 1 29 247 as against Rs 1 41 626 and Rs 1 36 209 in the preceding year The closing balance was Rs 37 711 exclusive of Rs 10 000 invested in Government Securities

The income shows a decrease of Rs 1 515 as compared with the last year To this should be added a sum of Rs 4 999 on account of sale proceeds of postal cash certificates received during the year Thus the total amount of decrease comes to Rs 6 514 which is chiefly visible under the head ' Octroi This is attributable to the fact that imports of dutiable articles were less on account of the failure of the monsoon

The expenditure shows a decrease of Rs 6 962 which occurred mainly under the head "Water Supply for the reason that during the year under report no large expenditure on the purchase of pumps taps and pipes was incurred as in the last year

49 The incidence of octroi taxation per head of population was Rs 3 8 6 as against Rs 4 8 7 in the year 1922 23

55. The total income and expenditure amounted to Rs. 27,031 and Rs. 27,251 against Rs. 29,386 and Rs. 18,431 respectively in the preceding year. The decrease of Rs. 2,355 in income is mainly noticeable under the heads "Octroi" and "Interest". The falling off in the octroi receipts was due partly to decreased import of articles of food and drink owing to large stocks remaining in hand from the previous year, especially in the case of gur and sugar, and to some extent to restricted import of zira. The interest on the balance of the municipal fund remaining with the Treasurer for 1923-24 was recovered after the close of the year under report, and this accounts for the decrease under this head. The increase of Rs. 8,820 in expenditure is due to (*a*) cost of making a portion of the Nalla leading water through the town pucca, (*b*) the purchase of land for the primary school, (*c*) repairs to roads which were left unexecuted last year, and (*d*) the contribution of a sum of Rs. 300 towards the construction of a New Hospital Building at Ajmer.

The ratio of mortality per cent. to total cases treated as indoor increased from 6·02 to 6·23. The high mortality in the Victoria Hospital is due to the fact that beggars and homeless wanderers are frequently brought in by the Police in a moriband condition, many of whom die almost immediately after their admission.

The total number of surgical operations of all kinds performed during the year was 4 289 with 10 deaths against 4 373 with 4 deaths in the previous year. Of these 1 412 were performed in the Victoria Hospital at Ajmer with 8 deaths against 1 617 with 4 deaths in 1922.

The total income of hospital and dispensaries in Ajmer-Merwara amounted to Rs 38 725 as compared with Rs 43 922 in the last year showing a decrease of Rs 5 197 which is due to the fact that during the previous year a special grant of Rs 3 000 was received from Government towards equipment and Rs 1 200 from the District Fund.

The total expenditure amounted to Rs 35 400 as against Rs 41 246 showing a decrease of Rs 5 846.

The total receipts during the year amounted to Rs 6[illegible]2 12 as against Rs 1 867 in the preceding year. The decrease is due to the fact that in 1922-23 five new companies were registered against only 2 in the year under report.

The expenditure incurred by Government amounted to Rs [illegible]0 14 in 1922-23. The increase which is small calls for no remarks.

There is practically no illicit export of exciseable articles from Ajmer-Merwara

The smuggling of liquor, opium and cocaine into the district has increased lately Efforts are being made to check it as far as possible.

The Excise Intelligence Bureau established in 1913 had done useful work in systematizing the detection of the breaches of Excise rules.

97. The non-co-operation movement had practically no effect on Excise administration during the year.

The efficient working of the department is due to the keen interest taken by Rai Bahadur M. Pyari Lal, Extra Assistant Commissioner of Excise Useful work was also done by Pandit Jagat Nandan when officiating as Superintendent of Excise.

(3) *Stamps.*

98 The gross income from Stamps amounted to Rs 2,38 329 as against Rs 2,55 582 in the year 1922-23 as shown below :—

The decrease in the sale of Judicial Stamps was due to the enhancement of the rates of court-fees which resulted in a diminution in the number of suits instituted.

General

101. The total collection of income-tax and super-tax amounted to Rs. 4,00,947. The number of persons assessed to tax by the Income-tax Officers in Ajmer-Merwara was 614 as against 449 in the previous year. No persons were prosecuted for failure to submit accounts. The cost of collection amounted to Rs. 6,139 as against Rs. 4,532 in the preceding year.

Sixty-five appeals were filed under section 30 (1) of the Income-tax Act, 1922, of which 54 were disposed of and 11 remained pending at the close of the year.

A sum of Rs. 15,419 was remitted on appeal. 6 appeals were filed under section 32 of the Income-tax Act, all of which remained pending at the close of the year.

The percentage of expenditure on the total collections was 1.53. The incidence of tax per head of population (4,95,271) in the district of Ajmer-Merwara calculated on the amount collected was 12.9 annas.

B.—Revenue and Finance other than Imperial

District Fund (Vide Statements Nos. 43 to 45.)

102. The year opened with a cash balance of Rs. 26,082 excluding the Dispensary Fund balance of Rs. 701.

The receipts amounted to Rs. 81,810 against Rs. 74,738 in 1922-23.

The corresponding figures of expenditure are Rs. 77,362 against Rs. 74,145 in the preceding year.

The increase in receipts during the year as compared with the figures of the previous year is due to increased receipts from the Capitation Tax on animals during the Pushkar Fair, while the increase in expenditure which falls mostly under the head "22 Education" is due to:—

(1) the payment of arrears of teachers' salaries at revised rates,

(2) annual increments, and

(3) some increase in the expenditure on annual repairs of village schools.

The closing balance of the District Fund on the 31st March 1924 stood at Rs. 30,532 excluding that of the Dispensary Fund which amounted to Rs. 72[illegible].

The Board held [illegible] meetings during the year.

Local Funds.

103 The cash balance at the credit of the Ajmer-Merwara Dispensary Fund at the beginning of the year amounted to Rs. 701.

The receipts during the year under report amounted to Rs. 11,531 against Rs. 12,737 in the preceding year. The decrease is attributable to the failure of certain Istimrardars to pay their contributions and to the discontinuance of the special grant made by the Beawar Municipality in the previous year. The expenditure during the year amounted to Rs. 11,004 as compared with Rs. 12,890 in the preceding year, showing a decrease of Rs. 1,886 which is due to a general decrease under nearly all heads of expenditure.

The year closed with a cash balance of Rs. 728, exclusive of investments in Government Securities to the extent of Rs. 44,000.

104. The receipts amounted to Rs. 16,108 as against Rs. 14,100 in the previous year. The increase is due to the larger amount of cess recovered.

The expenditure amounted to Rs. 21,029 as against 14,937 in the preceding year. The increase is due mainly to the investment of Rs. 4,850 in war bonds of the face value of Rs. 5,000.

The closing balance at the credit of the fund on the 31st March 1924 was Rs. 5,534, the condition of the fund being sound.

Besides this cash balance there are investments aggregating to Rs. 25,000 and a permanent advance of Rs. 50 at the credit of the fund.

105. The total receipts amounted to Rs. 84,489 as compared with Rs. 1,01,948 in 1922-23 the decrease of 17,459 being chiefly due to the fact that the last year's figures included a sum of Rs. 15,000 on account of sale proceeds of war bonds.

The expenditure amounted to Rs. 86,386 as against Rs. 1,00,667 in the preceding year, showing a decrease of Rs. 14,281 which is mainly attributable to the fact that expenditure amounting to Rs. 10,000 was incurred in the preceding year in remetalling the roads in the Sadar Bazar.

SECTION VI

PUBLIC INSTRUCTION

(Compiled by J. A. Richey, Esq., M.A., C.I.E., I.E.S., Superintendent of Education, Delhi and Ajmer-Merwara.)

106. The summary at the beginning of the statistical tables shows that the number of recognised institutions rose from 180 to 184 during the last year and the number of scholars attending them from 10,620 to 11,126.

General

The different grades of educational institutions are well distributed: one College, ten High schools, twenty two middle schools, one hundred and forty seven primary schools and four special schools.

Mr. J. A. Richey, C.I.E., I.E.S., Educational Commissioner with the Government of India, took over collateral charge from the permanent Superintendent of Education—Mr. J. T. Watkins, I.E.S.—who proceeded on leave in October 1923.

107. The proposal to found a Rajputana University took more definite shape during the year. Committees were appointed which prepared a con[illegible] ...ost and scheme for [illegible] ...ole hearted support [illegible] ...without their help the proposed university can[illegible]... If the scheme is temporarily abandoned it will be [illegible] ...olleges including the Government College Aj[illegible]... Under the Allahabad University Act they must in 1927 either cut off their intermediate classes or reduce themselves to the status of Intermediate Colleges. The former alternative is for financial reasons impossible; the second is very inadvisable and would be most unpopular. There remains the possibility of affiliating the colleges either with the University of Delhi or the prospective University of Agra.

University Education

The Government College, Ajmer, shows a further increase in number to 101. Considering that it includes in its courses science up to the degree standard, it is an inexpensive institution. The staff is not highly paid and economy is studied by making much of the physics apparatus in the college workshop. The premises are good but need electric installation.

108. The two Government high schools are well run and deservedly popular. The standard of instruction, if one may judge by examination results, compares favourably with that of the majority of schools in the United Provinces. The Ajmer Government High School is well housed and well staffed. The Moinia Islamia High School, on the other hand, is overcrowded and weakly staffed. The pressure on the accommodation will be relaxed when the primary classes are moved during the present year to a new block built for them in the compound by the Advisory Committee. There is, however, [illegible] ...Mohammadans or [illegible] ...schools ar[illegible] with th[illegible] ...hey also suffer from a lack of trained staff. With a larger introduction of the vernacular medium in the middle department it may be possible to make more use of senior trained vernacular teachers. The question of the curriculum is at present in a somewhat confused state. Hitherto the Anglo-vernacular middle departments and schools have prepared boys for the Rajputana Middle School Examination. This was held for the last time this year. The permanent Superintendent had suggested its abolition and was supported by the majority of the headmasters of the larger high schools. The wisdom of this step is at least doubtful. There are a number of middle schools in Rajputana States which relied upon this examination to set them an outside standard of attainment. It is doubtful whether its abolition will not lead to a large influx of unfit pupils into the High Department. Hitherto partly owing to the check exercised by this examination, partly owing to local conditions, the number of boys reading in the high school stage in Ajmer-Merwara

Secondary Education

has been very small in comparison with the number reading in the middle department. The Secondary and Intermediate Board of the United Provinces has introduced a new curriculum for Anglo-vernacular schools but has permitted schools in Rajputana to keep the curriculum laid down for the Rajputana Middle School Examination. With the disappearance of this examination the curriculum of the Rajputana schools will tend to adapt itself to that prescribed by the Board. The most radical change is the substitution of the vernacular for English as the medium of instruction of the Middle Department. This change is educationally sound but there are other particulars, *e.g.*, the insistance of a knowledge of two vernaculars, etc., in which the new curriculum is not an improvement.

The chief need of the secondary schools in rural areas is boarding accommodation. This is true of Anglo-vernacular schools such as the good Municipal School at Kekri, and of vernacular schools such as the vernacular middle schools at Sawar and Saradhna. There is, as usual, a demand for the addition of English classes to vernacular middle schools notably at Bhim and Pushkar, but until the parents support the demand with some tangible evidence of their keenness Government would not be justified in incurring extra expenditure.

109. The infant classes A and B are still retained in secondary schools but they must be dropped soon in order to bring their primary departments into line with the vernacular primary schools of the province. This change in vernacular schools was made two years ago and has proved very successful. The number of classes four, is now manageable by a single teacher in a small school and the rearrangement of the school curriculum has saved a year of school life. There is still room for a certain number of new primary schools and a number of schools are in need of suitable buildings.

110. The standard of instruction in the rural primary schools is generally good owing to the sound training the teachers receive in the Normal School at Mirshah Ali. This is a satisfactory institution which has done much towards laying a good educational foundation in Ajmer-Merwara. It has at present some 40 students. A small training class was opened last year in connection with the Mission School at Beawar.

ols.

111. The apparent drop in the number of girls' schools is due to the amalgamation of two primary schools with the Central Girls Schools at Ajmer. This school has now been transferred to the late Government High School buildings which are very suitable for this purpose. The number of pupils has considerably increased but the total number of girls at school in Ajmer is still very low.

lan

112. Mohammadans form about a quarter of the population of Ajmer-Merwara but in school attendance they are far behind other communities, 1,334 out of 9,648 in ordinary boys' schools and 24 out of 1,297 in girls' schools. The chief need is for Mohammadan teachers of all grades and of both sexes.

113. European schools in Ajmer are as full as they can be. St. Anselm's is at present borrowing boarding accommodation from the Government College but proposes to build this year a boarding house of its own. The Convent High School has lately added a well-built and well-equipped domestic science block which will develop a very useful side of the school work.

113-A. The Boy Scout movement is making a good start in Ajmer. There has been a popular Scout troop in St. Anselm's school and the High School for some little time and two of the Indian High Schools—the Husband Memorial and the Government High Schools—have made a successful beginning.

Lala Ram Dhan, now on his fourth extension, and Pandit Gaya Prasad carried out satisfactorily their duties of Deputy and Sub-Deputy Inspectors of Schools.
